

Flow

- view file
- nosetests
- nosetests -v
- nosetests -q
- nosetests -s
- nosetests -qs
- nosetests -v test_other
- nosetests -v test_flow:TestClassA
- nosetests -v
test_flow:TestClassA.test_that

Nose Exceptions

- `vim -o *.py`
- run tests, individually for each test; turn off the `@raises`

Coverage

- `nosetests --with-cover --cover-erase --cover-html --cover-html-dir cover`
- open `cover/index.html`
- `vi test_pretty_print_seconds.py`
- add tests until we have full coverage!
